

# Photocatalyst Car Cleaner

more **user friendly** than traditional deodorizer

**Under the Sun**  
UV  
UV  
UV  
UV

Anywhere under sunlight

## CleanAir

No Filter Required

No Toxic Materials

Battery Free

No Side Effect

No Bad Smell

**NANO TiO<sub>2</sub>**  
**Sterilization**

TiO<sub>2</sub> absorb UV → produce strong oxidizer → destroy bacteria cell & disintegrate allergens

## For Cars

**CleanAir**  
**New Gen**  
Filtering Technology

L90 \* W90 \* H5mm, 30g

Made in Japan  
Assembly in China

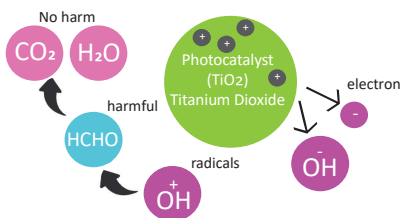

Mildew

Disinfect

Smoke

Pet Ordores

Bad Smell

**Titanium dioxide (TiO<sub>2</sub>)** is the main composition. Similar to **Photosynthesis in plants**, it utilizes **ultraviolet** to activate photocatalyst to produce **Oxhydrogen free radical (OH<sup>-</sup>)** which is strong in Oxidization is encircle and destroy bacteria cells, suppress activity of viruses and decompose allergen in air
